MOVING DAY FOR GERMANS IN THE REGINA TRENCH

BRITISH RESUME OFFENSIVE DURING FIGHTING WEATHER

Battle Front is Similar to That of Gettysburg in Crucial Battle of the Civil War

(Copyright, 1916, by The A. P.)

BRITISH FRONT IN FRANCE, Oct. 23.—With the return of fighting weather, the British resumed the offensive on a larger scale this afternoon and turned on enough gunfire and sent in enough troops to make sure Regina trench was theirs. It was the most important attack for three weeks.

All this month Regina trench has been developing a sinister reputation. It joins onto the old first line fortification in the neighborhood of Thiepval, and anything in that region, with comfortable dugouts, the Germans like to retain, in order to prevent the active battle front from broadening and for another reason which a British soldier expressed when he said:

"With winter coming on, we feel the need of those deep, snug dugouts the Germans spent so much time in building."

Parties of the British got possession of portions of Regina trench on several occasions, but the Germans swarmed in front of their burrows and repulsed the invaders. Evidently, Regina trench was not to be taken by nibbling and required one big bite. In such cases, there is nothing to do but to wait until clear weather, when the gunners can see what they are doing and turn on a number one artillery curtain of fire.

Yesterday morning, a set gunner's smile was on the face of the whole army. Instead of rain and mist making a gunner's bane of low visibility, an almost wintry sun was shining in crystal clear air—literally an artilleryman's heaven. All the gun tribe necessary for the job were up and in position already waiting for such a day as this, when the eyes that see for them from the observation posts can tell whether the practice shells they leisurely fire are on the target which they are to paste as fast as

VISCOUNT GREY APPROVES OF OUR ACTION

(By Associated Press.)

LONDON, Oct. 23.—In an important speech given at a luncheon by the Foreign Press association, Viscount Grey expressed his approval of the American movement for a league after war to maintain peace. He declared, however, that the nations which went into such a league must have public sentiment prepared, if necessary, when a critical time came to uphold their decision by force.

He referred to a German utterance regarding peace and the claims that Germany must have guarantees for her future protection. He added: "Precisely because this war was forced by Germany upon the world it is the allies who must have guarantees."

WAR NEWS AT A GLANCE

(By Associated Press.)

In the face of continued violent attacks by the Teutonic allies, in Dobrudja from the Danube to the Black sea, Rumanians and Russians are falling back.

Toprai Sari and Cobadin have been taken by the combined Austrian-German-Bulgarian and Turkish forces.

On the Transylvania front, hard but undecisive fighting continues in the mountain passes. Petrograd says the Rumanians have been forced back in the Buzea valley. Bucharest, however, does not concede this, asserting that Teutonic counter attacks were repulsed at the point of the bayonet.

The battle of the last week along the Narayuvka river in Galicia has resulted in an important victory for the Austro-German forces over Russians, according to Berlin. Here the Russians now hold only a small part of the front on the west bank of the river after a general attack by the Teutonic allies between Svitelniki and Skomovochy. Petrograd says, however, that the fighting is still going on, and that the positions have changed hands several times.

Twice during Sunday—in the morning and in the afternoon—Germans launched violent attacks against the positions newly captured by the French in the Chaulnes wood, south of the Somme. Both attacks were repulsed, according to Paris. Some of the attackers in the morning offensive gained a foothold in the French first line, but were surrounded and the 150 survivors made prisoners.

Berlin, in admitting that in Saturday's fighting the British north of the Somme made gains, characterized the British losses as a "reckless sacrifice of human lives." Several trenches between Bianches and La Maisonnette, south of the Somme, were recaptured Saturday, from the French, says Berlin.

On the Macedonia front, slight progress has been made by the entente allies in the Cerna river region. German troops are aiding their Bulgarian allies in the fighting at the bend of the Cerna.

Heavy rainfalls and snowstorms are impeding the operations in the Austro-Italian theater.

A German aeroplane, which dropped four bombs at Sheerness, England, Sunday, is believed to have been the same aircraft that was destroyed later and fell into the sea, under the attack of a British warplane.

PROTEST ENTERED AGAINST EMBARGO

(By Associated Press.)

CHRISTIANIA, Oct. 23.—The German minister has presented to the Norwegian government a note protesting against Norway's embargo on the submarines of belligerent countries. The cabinet discussed the note, but its decision has not been made public.

The press unanimously supports the government in its right to issue such an ordinance, as Sweden has already done.

ARTILLERY BATTLE ON THE SOMME CONTINUES

(By Associated Press.)

BERLIN (official), Oct. 23.—British and French attacks against German positions between Le Sars and Ran-court, in the Somme region, were repulsed with sanguinary losses. On the north bank of the Somme a tremendous artillery battle continues.

Valuing the silver and gold content at 80 cents an ounce, the consignment was worth \$71,736. Inasmuch as there are 24 shipments a year made by the Extension, at this average the output for twelve months would be \$1,716,864.

FURTHER DEMANDS MADE ON GREECE

ALLIES INSIST UPON CONSTANTINE TURNING OVER WAR SUPPLIES

(By Associated Press.)

LONDON, Oct. 23.—The presentation by the entente allies of further demands on Greece, including the removal of Greek troops to the southern part of the country and the handing over of Greek war supplies, is reported by Reuters' Athens correspondent.

The Athens dispatch, which is dated Friday, says the demands were presented to King Constantine by the French military attaché. Greece is required to transfer the entire military force in Thessaly to Moreau. Delivery to the entente allies of war material destined for the Thessalian forces also is required. Other demands were made, the nature of which is unknown.

M'NAMARA PROPERTY TO SHIP REGULARLY

AUSTRIAN CABINET WILL OFFER ITS RESIGNATION

Crisis Follows the Assassination of Premier Stuerghk by a Vienna Publisher

(By Associated Press.)

BERLIN, Oct. 23.—A Vienna dispatch to the Overseas News agency says that the Austrian cabinet held a session after the assassination of Premier Stuerghk, presided over by the senior member, Baron Georgi, minister of national defense. In accordance with precedent, all the ministers will offer their resignations, but it is not expected they will be accepted by Emperor Francis Joseph.

The minister of the interior, Prince Hohenlohe-Schillingfurst, who is on leave of absence, will return immediately to Vienna, and will act as premier for the present. The minister of finance, Dr. Von Koerber, intended to depart for a trip of inspection in Bosnia, but has postponed his departure.

Among those mentioned as possible successors of Count Stuerghk are

Prince Hohenlohe-Schillingfurst, Baron von Beck, former premier, and Dr. Doerber.

"Berlin newspapers point out that the murderer of the premier was of unbalanced mind," says the Overseas News agency. "His sister has been in an insane asylum for more than ten years."

"Dr. Friedrich Adler advocated anarchistic theories and was a violent opponent of his own father, Dr. Victor Adler, the recognized leader of Austro-Hungarian socialists. A few days ago, the Arbeiter Zeitung of Vienna, the official newspaper of the Austro-Hungarian socialist party, published an editorial denouncing Friedrich Adler's agitation as obnoxious to the socialist party and detrimental to public interest. The editor in chief of the Arbeiter Zeitung is Dr. Victor E. Adler."

NEW MIDWAY MINE CONNECTS WITH THE FORMER WORKINGS

The west drift of the Midway Consolidated Mining company on the eighth level holed through Saturday night into the old workings of the property on the corresponding working of air, something that the Midway has been battling for ever since it started its new shaft.

It will require about two days to clean up, after which the Midway will start taking down ore, it having

encountered several excellent bodies which crossed the drift to both east and west from the crosscut from the shaft.

The connection will also release a quantity of air which was pumped to the eighth and will permit it being sent down to the lowest level, where operations had to be suspended, both because of air conditions and flooding. The bottom workings are now drained by deeper developments in the locality.

STRANGERS TAKE IN "FORTY-NINE" CAMP

CALIFORNIA GREYS EXPERIENCE "LUCK" ON THE RED LETTER SIDE

(By Associated Press.)

SAN FRANCISCO, Oct. 23.—The "Forty-nine Camp" was staged by the California Greys, exclusively a local military organization, at a loss to them of between \$1700 and \$3700. Instead of yielding a profit to cover transportation to Washington to participate in the inauguration March 4 next. The blame is placed upon two well dressed strangers who are now recalled to have had remarkable luck at "craps" and roulette during both nights at the "camp." The police officials admitted issuing a permit for "entertainment," but denied knowledge that wide open gambling would be indulged in.
